

# Gets a grip on black ice.

Innovative technology.  
Outstanding effect.

## NORD❄️FROST 200

The NORD❄️FROST 200 – the literal all-rounder when it comes to winter driving! Due to its optimized compound, stud design and pattern technology, the restrictions imposed by winter road conditions are a thing of the past: outstanding force transmission, improved handling on all surfaces and an increased grip on ice and snow make the NORD❄️FROST 200 the ideal winter tyre for the highest demands. Safety included.

# Gets a grip on black ice. Innovative technology. Outstanding effect.

## Highlights

**Great grip on ice due to innovative studs**

Gislaved's newly developed stud Eco Tri-Star provides important benefits. Its low weight allows more studs on the tyre – and a significantly stronger grip on ice.

**Short breaking distances on icy roads**

Reservoirs for crushed ice and a sophisticated channeling system ensure optimum road contact and shorter braking distances – even in the most demanding braking situations.

**Perfect force transmission**

The new pattern design allows sipe interlocking and advanced lateral grip – giving an optimised grip on ice and snow.

## Dimensions

## Performance Diagram

— NORD\*FROST 100 = 100 %  
 — NORD\*FROST 200

LI = Load index  
 SI = Speed index  
 T = up to 190 km/h  
 XL = Extra load  
 FR = Rim protection  
 \* = Studded tyres

### Tyre dimensions:

Speed index: **T**  
 Rim size in inches: **14 – 19**  
 Tyre widths in mm: **175 – 285**  
 Tyre cross section: **70 – 40**  
 EU tyre label: **C-E / E / 72-75 B**

### EU tyre label categories:

W = Fuel Efficiency, W = Wet Grip,  
 dB = Value in decibels, Noise = Noise,  
 S = Snow Grip, I = Ice Grip
