NORD ❄️ FROST 200

TECHNICAL DETAILS

Asymmetrical Pattern Technology:

Adjusted outer shoulder for optimized handling performance and V shaped inner area for improved aqua planning performance and waterflow.

Sharp Angle Shoulder Design:

Allows improvement in lateral grip and increase pattern stiffness to offer better overall handling experience in all weather conditions.

3D Stepped and 3D Sinusoidal Sipe Technology:

A combination of 3D stepped sipes on the inside and 3D sinusoidal sipes on the outside work together to provide optimized grip for snow and ice while improving wear performance.

Pinned for Winter Studs:

For those that desire the added ice grip winter studs provide.

Option to have Tires Pre-Studded with New Eco Tri-Star Stud Technology:

Offers better ice grip performance in all directions compared to standard round stud via pin design. Utilizes light weight aluminum construction to reduce road wear.

Enhanced Snow, Ice & Wet Traction:

Snowflake approved sizes meet the severe snow service requirements of the Rubber Manufacturers Association (RMA) and the Tire and Rubber Association of Canada (TRAC).
